Secretary's message

At the outset I thank you all for reposing your faith and confidence in me to continue managing the affairs of this prestigious club.

We are in the midst of trying times having braved the first and the second wave of the pandemic. Despite the circumstances the previous and present committees have been proactive in ensuring the continuity of club operations with the prescribed framework keeping in mind the statutory regulations.

By the time this issue of MC Live reaches you, our nation would have celebrated it's 75th Year of Independence. Keeping with

tradition, the tricolour was hoisted in the club premises in the presence of committee members and staff.

In hopes that you and your loved ones are staying safe and taking all Covid safety precautions we are positive that in the months to come, with the support from you all, we shall celebrate and cheer as our MC family comes together once again.

Vincent Joseph Neeliyara
Hon. Secretary

Peter Mascarenhas – Architect/ Builder

Paul Mascarenhas – Engineer/ Builder

Peter and Paul Mascarenhas; the men...the masters...the legends!

Mangalore's most famous architects with their commanding statures and impressive personalities are a force to reckon with.

Standing tall at 6ft 1 inch, they are Mangalore club's very own twin towers! They function as a single unit but with twice the charm, twice the style and twice the mischief! They are fun loving, very friendly and extremely generous human beings.

Peter and Paul are the most renowned architects of Mangalore, who are responsible for the most impressive building elevations, sophisticated plans and premium interiors under their banner 'Archi-technics' since 3 decades. However their masterpiece, pride and joy is their very own 160-year-old ancestral home, 'Albert Mansion', which is one of Mangalore's most beautiful heritage homes.

The doors of 'Albert Mansion' are open to everyone, with an invisible hanging signboard by Jim Beam, which reads; "*come as a friend, leave as family*".

This dynamic duo work hard and party hard too, their friends say they're '**Archi-technics by day and Party-technics at night**'.

Peter and Paul have been club members since 1997 and have played very active roles in heading the executive committee as Secretary; Peter from 2006 to 2009 and Paul from 2011 to 2012 and 2016 to 2017. They have been responsible for maintaining Mangalore club's classic elegant look by offering their honorary services to

renovate and upgrade the club.

Peter is married to Sandra and Paul is married to Leah, both of whom are very loving, talented and supportive wives. Ask Sandra and Leah the inside story about Peter and Paul and all they'll say is '*MUMs the word*'!

Speaking of mum, Mariette Mascarenhas, she is the matriarch of the family, a well-known, highly respected, very genuine and wonderful lady.

Well, to sum up Peter and Paul; they are a *perfect blend* of the finest qualities, an Absolut joy to be around and the evergreen *Kings of good times*! Cheers!

Foodie of the month

Neetha Kamath recommends the *Grilled chicken steak Dianne* along with a *virgin Mojito*.

If I'm spending a lazy Sunday evening watching the sunset from our club, I enjoy sipping on a refreshing virgin Mojito, which is perfect while outdoors, given our weather! Ending the night, I love to devour the club's 'Grilled Chicken Steak Dianne'- Well grilled Chicken breasts sautéed with onions & mushrooms, then braised in herbs and spices, along with a broth of brandy /chicken. Guess the last bit is "the chef's secret", reckon he'd be perfect to answer that for you 😊

Club Express

"As a teacher, if you had your younger self as your current student, what teaching would you impart?"

Gerard D'Souza

After thirty five years of teaching at the MBA level, I would have taught my younger self the difference in being an "efficient student" and an "effective student". "Efficient" is to "do things right" but to be "effective" is to "do the right things", a world of difference that results in the extremes of success and failure. To be effective you have to be efficient...but the reverse is disastrous.

Success at the end of the day is an integral function of the sum of hard work that is put in individually that leads to being an effective human being.

Lionel Aranha

Always plan for the fact that no plan ever goes according to plan.

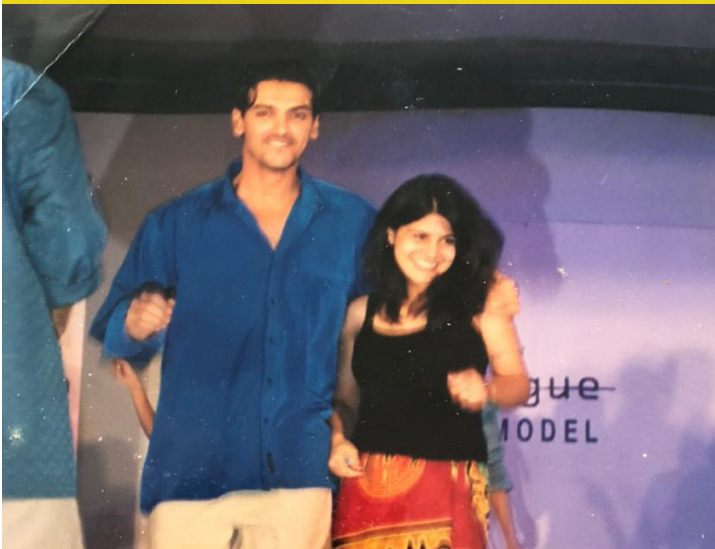

Patsy Pinto

If I could teach my younger self one thing, I'd teach her that life is not like a chapter out of a Mills & Boon story, but neither is it like an episode of the Bold and the Beautiful. Life is filled with ups and downs. It's not always rainbows and butterflies, nor is it going to be always so dramatic!
